

Sorry I didn't type it. But here's what I can remember:

Prayed and thanked God for his love over us and his gift of salvation, adopting us into sonship.

Prayed for all suffering as a result of the pandemic either through lost of love ones or infected, that the Lord comfort, strengthens and bring healing to them.

Prayed for hospital workers that the Lord protect them and give them the strength and joy to carry on. For security agents, that they may discharge their duties in love and compassion and that the Lord protects them.

For the Lord to use us to bring comfort and love to those around us.

Prayed for world leaders that the Lord guide them in decision making especially in this time.

For Sunday school kids, that the Lord use parents to teach them his ways.

For all churches of Christ especially those in financial needs, that the Lord see the church through this time.

Thanked God for his healing on Richard, May he strengthen him and Jane. And all others suffering from other illnesses, that the Lord heal them.

Thank God for using John Dinnen to bring his word, may he continue to use him in the coming weeks.

For Alan and family and for Zaz and all others who are working hard to see we continue to fellowship and stay in touch at this time, may the Lord bless them.
